## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

### ***Specification***

2. The disclosure is objected to because of the following informalities: the specification appears to be a literal translation into English from a foreign document and is replete with grammatical errors. Appropriate correction is required.

### ***Claim Objections***

3. Claims 1-3 are objected to because of the following informalities: the claims appear to be a literal translation into English from a foreign document and are replete with grammatical errors and indefinite language. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Rathjen (US#4924565).

6. Regarding claim 2, Rathjen discloses a method of preserving dead animals and organic waste, comprising: a means for using nitrogen (from an inherent nitrogen storage tank) replacing air from the interior of the container (casket) for preventing the proliferation of bacteria (col. 7, lines 40-61).

***Allowable Subject Matter***

7. Claims 1 and 3 are allowed.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
